Backstory

MOURI Tech's mission is to develop, and implement high-quality enterprise IT solutions for their esteemed customers to serve their specific business needs. While they were catering efficiently to a gamut of clients with a strong team, in their own employee process, they faced challenges in managing the leaves and attendance of the employees because of the large number of staff they work with. They were also facing difficulty in processing the

payrolls of the employees. As a result, it affected employees' productivity. Additionally, as the team had to spend more than the required time on processing payroll, the team was not able to concentrate on other important processes.

Choosing Keka

"The solution to MOURI Tech's payroll problems was Keka. Keka's processes are way simpler to use than other complicated products available in the market at present. The modules and processes are self-explanatory and easy to understand. Keka has even created migration tools to make the process easy for the concerned company, in this case, it was MOURI Tech. Keka's unique user interface makes the numerous workflow and checks required before disbursing salaries a painless activity.

People management and process automation

With Keka, all Payroll activities are carried out from a single screen, thus reducing MOURI Tech's payroll processing time drastically. To be precise, Keka's process has brought down the payroll processing time to a single hour.

Data Matrix

Payroll processing time reduced to	1hr
Time saved by finance team	80hrs

Time saved to automate mundane task	**75%**
Increase in productivity	**35%**
Time saved by decision makers due to report generation	**90%**
Within 6 working days employee queries TAT is	**97%**

Keka helped MOURI Tech's HR and Finance team save a lot of time in managing employee activities like attendance, leaves. The time saved here was used by the team to help employees perform better. Keka helped save 45% of the team's time to automate the mundane activities. Leaves, attendance, expenses, loans, and other processes are seamlessly integrated into a single page interface. It has also helped MOURI Tech in generating different kinds of reports, thus easing their process of decision making. With a single click, Keka's Payroll Software does all the calculations, statutory form generation, payslip, and payment disbursement files.

Support is as good as the software

With the best processes and systems in place, Keka's next-generation customer care with real-time chat support makes it one of the most sought-after partners to global enterprise solutions providers. It boasts of a quick and excellent customer support that has guided MOURI Tech at every step in configuring the system and tweaking it as per needs. Time and again, the Keka's customer support team has gone out of their way to assist MOURI Tech in on-boarding with Keka and Processing Payroll in the initial days. It's customer care service is available on phone or email and is also available during critical payroll periods.

The team at MOURI Tech believes that Keka can help enterprise level IT clients like them to manage their people processes. Keka has been the one stop solution for MOURI Tech's people process needs. Keka's simple and easy to use platform has not only helped the HRs at MOURI Tech but also has helped the employees to simplify their day to day activities like processing leaves, getting their issues resolved through Keka helpdesk and maintaining their timesheet.
